Allowable subject matter

Claims 10-51 and 77 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to explicitly disclose a method for physical layout of a microfluidic system comprising the steps:

- placing a microfluidic component on the template, wherein the microfluidic component comprises a component control channel and a component fluid channel such as required by claim 32;
- placing a component of the plurality of microfluidic components on a first layer of a plurality of layers, the component comprising a first fluid channel and a first control channel such as required by claim 36;
- placing a first symbol representing a first component of the plurality of microfluidic components, the first symbol comprising a first fluid channel symbol and a first control channel symbol, the first control channel symbol on a different layer of the plurality of layers than the first fluid channel symbol such as required by claim 37;

The prior art also fails to disclose the following features, in combination with the remaining elements of the independent claims 10, 12, 77:

- Wherein the associated property has one physical scaling, physical property, layer assignment, and function definition, and the physical property includes a physical dimension having depth information such as required by claim 10;

- Wherein the associated property has one of physical scaling, physical property, layer assignment, and functional definition, wherein the first component comprises an elastomeric structure such as required by claim 12;
- wherein the microfluidic component of the microfluidic components comprises a data structure having channel depth information such as required by claim 77.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
